SELECTED PROJECTS

- Co-branding Project** — Led a 3-way co-branded group deal with Intel and a 2.8M-subscriber creator, reaching \$1.2M+ GMV.
- New Discount Format** — Built a new in-app group-buying discount format, bridging Hangzhou HQ and the Seoul office.
- Data Visualization** — Turned promotion data scattered across spreadsheets into a single self-built dashboard.
- Offline Events** — Supported global offline activations, from Paris 2024 to an 11.11 creator event at Hangzhou HQ.
- Content Production** — Produced AI-native content for the AliExpress Korea channel and led internal AI upskilling.
- Tools I Built with AI** — Three work tools I built with AI coding assistants as a non-developer — each one starting from the decision it needed to support, not from the technology.
